303infinity's Friend Space (Top 18)

303infinity has 18599 friends.

Sounds Like	<p>303infinity was founded in the late 90's by Mikel Fair. The focus of 303infinity has been producing Trance music. 303's signature sound became a combination of pulsing nightclub rhythms with elegant pianos, strings and melodic sounds. After a successful run on mp3.com, generating over 10 million mp3 downloads, "303infinity's" debut CD release in 2001 entitled, "Dreamworld" sold over 48,000 CD's worldwide. 303infinity hit number 1 on the mp3.com overall download charts with the hit "Winter Rain." Mikel joined up with Jordan Kolar (aka SiFu, myspace.com/jordankolar) to produce more hits including Audio Fantasy, Faces, and Judgement Day. After a long hiatus from music, Mikel Fair has teamed up with Nikolai Stepan to bring you Dreamworld II for 2007. The recording has been completed, and the CD will be available very soon. The album has 10 tracks, 4 of which have guest female vocalists: Freda, Dorothy Godlinski, Laurie Ann Fessler, and Vina. Next up is Dreamworld III. Mikel Fair and Jordan will complete the trilogy in 2007. Work has already begun on this album, with tracks like "Memory Function" and "Foreplay."</p>

223,191 kids were hit in US schools 2006-2007 school year. 49,197 students were hit in Texas alone last school year.

Dear Friend, I grew up being subjected to brutal corporal punishment in school. Please contact your local school district administrators and your Governors office and tell them that this legalized abuse needs to stop now.

Contact Governor Rick Perry by phone or e mail from the following link:

<http://governor.state.tx.us/contact/>

It's time for the hitting to stop!

Hello!! How things are going this time?:-) I'm here cos, first, I want to tell you hi and, second, I want to present you my new track 'On The Groove'. Yes, I know, its tittle reminds to the famous dance tune 'On The Move' by Barthezz (what a time!) but it's no exactly the same. Maybe I can rate this tune as tech-trance but I'm not very sure (you know I'm living a mess with styles now) :_(I just wanted to play with rhythms and groovy basses. You'll not find a serious and uplifting trance tune this time. I don't know if you'll

enjoy it cos maybe I've forgot a little bit my usual melodies:-/ Well... no, I have forgot completely all my usual melodies... ehem:-/ I don't know if I'm following the right way making tracks like this. As all producers and djs, I just want people to dance :-)
Please, drop some lines about this tune or about... whatever!! You know I love talking a lot (yeah, I know, it's my worst defect... ehem) :-/Many hugs from this heady producer:-P

Cool music, keep in on!
Mike, remember me from mp3.com? Had
some nice conversation 8 years ago there.
When I was in Houston you had been

Maybe some other day!

Keep it up, guys!
